

Proven. Flooring. Experiences.

When tough is the name of the game, Roppe brings extraordinary durability.

Have a project that requires extraordinary durability? Tuflex® Spartus is the solution. Originally developed for multipurpose sports applications, Tuflex durability, stability and comfort also make it ideal for other high-traffic commercial spaces where “extraordinary” use requires extraordinary flooring™, including retail, office, showrooms and transportation.

No cupping, crowning or buckling. Guaranteed.

Even in the toughest environments, Tuflex holds up because its top and bottom layers are fused for a permanent solution that won't cup, crown or buckle. It also won't discolor. We're so confident in these claims that we back them with our Lifetime Wall-to-Wall Warranty.

It's also the only rubber flooring that's both 100% recyclable and Red List Chemical Free. And it delivers aesthetics as well as durability.

See for yourself how our extraordinary products, including Tuflex, can help you achieve the ultimate in extraordinary spaces.

rubber tiles at 3/8" gauge with square or interlocking edges
